Your Career Interest Profile

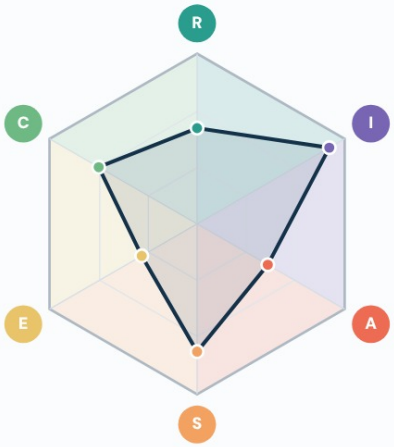

Career Interest Profile for Sample Student

Your strongest pattern is Investigative, Social, Conventional. Use this report as a guide for exploration rather than a final decision.

RIASEC score profile

Investigative (I)	55/60
Social (S)	48/60
Conventional (C)	44/60
Realistic (R)	39/60
Artistic (A)	35/60
Enterprising (E)	30/60

Holland interest pattern

What your Holland code suggests

Your Holland code begins with Investigative (I), followed by Social (S) and Conventional (C). This suggests that your strongest interests centre on analytical, investigative and problem-solving interests, supported by people-focused, supportive, teaching and helping interests, while structured, organised, accurate and system-oriented interests adds another important influence. The code does not point to one fixed career; it highlights the kinds of activities and environments that may be especially worth exploring.

- **Investigative (I) · 55/60**
- **Social (S) · 48/60**
- **Conventional (C) · 44/60**

Environment fit at a glance

🔬 **Strong fit**

Analytical & investigative

Settings that reward inquiry, evidence, problem-solving, research, and deep thinking.

🤝 **High fit**

People-focused & supportive

Work centred on helping, teaching, advising, communicating, and supporting others.

📋 **Good fit**

Structured & organised

Clear systems, reliable procedures, accuracy, schedules, records, and organised workflows.

Your strengths at a glance

🧠 Analytical thinking

Investigating questions, interpreting evidence, and solving complex problems.

💬 People support

Listening, explaining, teaching, encouraging, and helping people develop.

✅ Organisation & accuracy

Creating order, following reliable processes, and maintaining accuracy and consistency.

Your strongest themes

Investigative (I) — 55/60 · High interest
You enjoy analysing questions, investigating ideas, solving problems, and understanding how things work.

Social (S) — 48/60 · High interest
You are interested in helping, teaching, supporting, explaining, and working directly with people.

Conventional (C) — 44/60 · Moderate interest
You prefer organised systems, accuracy, clear procedures, reliable information, and structured tasks.

You may enjoy environments that involve

- complex problems
- analysis and evidence
- independent investigation
- helping people
- teaching or explaining
- team interaction and support

Career areas worth exploring

Linked to your Investigative (I) interest
▲ Fast-growing

🩺 Health and diagnostic fields
Linked to your Investigative (I) interest
▲ Growing

🎓 Education & training
Linked to your Social (S) interest
▲ Growing

🤝 Counselling & community services
Linked to your Social (S) interest
▲ Growing

❤️ Health and people-support roles
Linked to your Social (S) interest
▲ Growing

💰 Finance & accounting
Linked to your Conventional (C) interest
↻ Evolving

📋 Administration & quality systems
Linked to your Conventional (C) interest
↻ Evolving

Outlook tags (▲ fast-growing, ▲ growing, ↻ evolving with technology) summarise global labour-market trends to 2030 reported by the World Economic Forum (Future of Jobs Report 2025). They describe how demand is changing, not your suitability for a career.

Suggested next steps

- Choose two or three areas above and investigate what the day-to-day work actually involves.
- Compare your interest pattern with subjects and activities you already enjoy.
- Speak with someone who works in one of the areas that caught your attention.
- Try a short project, course, or practical experience before making a study or career decision.

This assessment is designed for career exploration and guidance. It does not make a final decision about your future study, career, or suitability for a profession.
